HOME DEPARTMENT.

Enclosures:

RC No. 890/RA/42 dated 1st October, 1942.

Sir,

POLICE - Bellary district - police guard for Alipuram Jail - Additional staff - Employment - Sanction - Requested.

I have the honour to request that the Government will be pleased to sanction an additional staff of 1 Sergeant, 2 Head-Constables, 2 Naiks, 4 Lance Naiks and 48 Constables for guard duty in the Alipuram Jail in the Bellary district for a period of one year from the date of their employment or until the necessity for their employment ceases, whichever is earlier.

2. At present there are approximately 11,000 prisoners in the Alipuram Jail. The number is increasing daily and the Superintendent of the Jail considers that a Police guard is necessary. An extract from the report of the Deputy Inspector-General of Police, Central Range, who examined the jail carefully, is enclosed. I consider that a Police guard consisting of 1 Head-Constable, 1 Naik, 2 Lance Naiks and 24 Constables should be provided for this jail. For supervision and relief a further staff of 1 Sergeant, 1 Head-Constable, 1 Naik, 2 Lance Naiks and 24 Constables is also required. As this staff cannot be found from the existing strength of the Bellary district, I have issued instructions to provide the guard temporarily by taking a section each from Chittoor, Kurnool and Anantapur Reserves.

3. The additional staff of 1 Sergeant and 2 Head-Constables cannot be found from the existing sanctioned strength of the district and specific sanction for these posts and for the special pay and allowances mentioned in the Annexure may kindly be accorded. The total of 56 Constables required against the additional staff of 2 Head-Constables, 2 Naiks, 4 Lance Naiks and 48 Constables referred to in paragraph 1 above will be found from the staff of 650 Constables now under training in the Central Recruits' Schools and no fresh enlistment of Constables will be made.

4. A statement showing the financial effect of the proposal is enclosed (Annexure).

5. The expenditure will be met from the appropriation under the relevant sub-heads under "29.c. Police - District Executive Force - A. District Police - I. Ordinary Areas - Authorised" to be augmented later, if necessary, by re-appropriation or additional appropriation.

I have the honour to be,
Sir,
Your most obedient servant,

for Inspr.-Genl. of Police.

Extract from report No.3160/Genl./42, dated 7th September 1942, f the Deputy Inspector-General of Police, Central Range.

Sub:- Guard for Alipuram Jail, Bellary.

I have gone into the matter in detail with Mr. Howe, and have examined the jail carefully. The position is as follows:-

The Alipuram jail is not an ordinary jail, that is to say it has no high walls, no cellular blocks, and escape from it presents no real difficulty. The jail perimeter is surrounded by a very light exterior double apron which is unfilled. The total height of this apron with the 3 electrified wires, which are superimposed, is about 7 feet. Inside this apron is a guard fence about 5 feet high, composed of barbed wire stands approximately 6 to 9" apart. This fence is flimsy and could be pulled down without difficulty. The outer apron, even with the electrified wires, presents no serious difficulty to escape.

2. The Warders lines are situated on the opposite side of the jail to the main entrance, and a recent test along with all the warders standing by in their lines waiting for it, demonstrated that it took 19 minutes for the men to arrive, and when they did so, they were exhausted and unfit for any duty for another five minutes. The jail is provided with flood lights and lighting along the perimeter. Even if there is 24 hours electric supply, escape is a simple matter. The position at the moment is that the current is supplied only between the hours of 4 P.M. and 12 midnight.

3. According to the Jail Manual, the safety figure for warder strength is 1 warder for 10 prisoners. This applies to the normal jail with cellular blocks. The warder strength in the Alipuram jail is 66, of whom only 20 can be really relied upon, the others being old, unfit, inefficient and unreliable. 20 others are being sent to Alipuram from other jails, and it cannot be expected that the best men will be sent so that the proportion of reliable warders among those is likely to be less than a third. The average daily casualty figure is 7 or 8; during the cold weather, it rises to 12 and sometimes 16.

4. The present strength of the jail is approximately 11,000 prisoners, and I have no hesitation in stating that the safety margin has long since been passed. At the moment, there is no indication of impending trouble, but prisoners are arriving daily, and it is certain that before long one or two real badmashes are bound to be received. There being no cells, it will be impossible to segregate them from the other prisoners, so that they will be able to foment trouble without hindrance.

5. Blocks are divided from each other by interior low wire fences and low walls, neither of which present any difficulty to a reasonably active prisoner. In fact, the wall between the Junior Certified School and the block in which the lifers and other ordinary criminals are confined, can be crossed in 10 seconds. This was demonstrated by a prisoner not very long ago.

6. In addition to prisoners, quinine to be supplied to the whole of India is located in half of the block allotted to 'A' and 'B' class political prisoners. At present, there is quinine of the value of approximately 7 lakhs of rupees in store, and this is daily increasing in quantity and value. Consignments of quinine leaving the jail pass through the area allotted to the 'C' class politicals. The arrangement is thoroughly unsatisfactory and should be reviewed.

7. Latrine arrangements in the blocks in which prisoners are confined are inadequate, so that prisoners have to be allowed out of the blocks to go to latrines in their block compounds. Thus, it is possible for 270 or more prisoners to be loose in any of the A & B or C class politicals' compounds. There is nothing at present to prevent

prisoners

prisoners from talking to persons outside the wire, and tools, weapons, letters, etc., can be easily tossed over to prisoners from outside, the total circumferance of this perimeter being approximately 1½ miles. It is not possible for the warder staff to post sentries outside it.

8. There is nothing to prevent prisoners from congregating and holding meetings or demonstrations, and I estimate that if the prisoners of one block alone made a concerted effort to escape, it would not take them more than five minutes at the most to break out of the jail in a body. If the prisoners obtain one pair of wire cutters, the fence obstacles will disappear completely.

9. Mr. Howe has on hand 130 - 410 muskets and an adequate supply of ball and buckshot ammunition.

10. Considering all the above, therefore, my views are as follows:

(a) Electric current must be supplied throughout the 24 hours; without this, half the protection provided by the apron with its electrified wires is lost. Hurricane lanterns are of no value, and to provide enough of them would mean a very considerable consumption of kerosene oil.

(b) Sentries should be posted around the perimeter outside the wired apron; for this purpose, 8 sentries will be necessary with good lighting; without lights, the number will have to be doubled.

11. I estimate the strength of the Police guard required to be at least 1 Head-Constable, 3 Naiks and 24 Police Constables. This guard will have to be relieved every 24 hours, to avoid difficulties about food.

12. I examined the question of placing an emergency force at the jail, and came to the conclusion that it would not require any fewer men than the full guard mentioned above.

13. The jail is connected to the telephone system, but no reliance can be placed upon this, as the jail is situated nearly 2 miles from the police lines, and if the telephone wires were cut, as presumably they would be, by the outsiders in conjunction with any mass attempt to escape, it would not be possible to communicate with the Reserve Police in less than a quarter to half an hour, and there would be no chance of any Police force arriving in less than half to three quarters of an hour. Thus, an emergency force to be effective must be stationed at the Alipuram Jail.

Police - Bellary district - Guard for Alipuram Jail - Additional staff - employment.

From the I.G. of Police, R.C. No 890/R.A./42 dt 1.10.42

In the circumstances stated by the I.G. in para 2 of his letter at p 1.c.f this Dept may accept his proposal to sanction a temporary additional staff of 1 Sergeant, 2 Head Constables and 54 Constables (including 2 Naiks and 4 Lance Naiks). ~~for a period of 1 year~~ The period may be extended upto 31.3.1943, or from the date of employment for until their necessity for their employment ceases to exist whichever is earlier. The I.G. states that he can find the staff of 56 Constables necessary to fill up the posts of 2 Head Constables and 54 Constables from the temporary staff of 650 Constables recruited against the sanction accorded in G.O. No 1408, Home, dt 1.4.1942 (which expires on 31.3.43.) The I.G. has furnished the guard temporarily by taking a section each from the Armed Reserves of Chittoor, Kurnool & Anantapur

2. The expenditure involved in the proposal is Rs 1,311-0-0 and not Rs 16,090-8-0 as stated by the I.G. in his letter at p 3.c.f as the major portion of the staff viz 56 Constables are found from the temporary staff already sanctioned.

3. Draft order submitted is for consideration If approved it may be sent to the Finance Dept for acceptance.

Copy at W
The total strength sanctioned now was 700

page 4 c.f

3/10/42
Thro' C. Secy on I.G.P.'s report on p 5 c.f.

This is the first time that the question of a police guard for this jail has been raised since we reopened it. In 1940 - 41, we had the individual safety precautions. And naturally we were not worried about the possibility of escape as apart from electrification there was no likelihood of their attempting to escape since they sought imprisonment. But the present type of prisoners are different have not sought imprisonment voluntarily and are of a different character. On the other hand however they were political prisoners and the offences they committed were in pursuance of a political campaign & we all know of the consequences. The question is therefore whether any guarding is necessary to prevent escape. I do not know whether we had any guarding during 1920 - 21 when the Republicans were kept in Arbour; but I doubt it. I think we have always regarded electrification as a sufficient precaution.

Although we have sanctioned recruitment of addl. staff of 700 constables, this demand of 54 constables is a big one and should not be sanctioned unless really necessary. The sanction for 700 constables was to meet unforeseen demands on account of the war & we have already made several inroads on this addl. staff for guarding internees & will need every one of them.

It does not appear that the I.G. of Prisons has asked for this guard or thinks it necessary. The D.I.G.'s report shows that more warder staff is required & the I.G. of Prisons may consider that this is sufficient.

There have always been some ordinary convicts in Alipore jail but there I think have never been of a dangerous kind. ~~and are quite~~ I've not heard of any proposal to confine lifers in Alipore then new could easily be exchanged for non-lifers of Bellary C.J. ~~where they are~~ In fact I doubt if we ever sanctioned confinement of lifers in Alipore.

My Dear Mr. Gassan,

Police - Bellary district - Guard for Alipuram

Jail - Additional staff. Employment - Reference:- your letters R.C.No 890/R.A/42 dt 1.10.42 and 3.10.1942 -

I am to say that the Govt. are unable to agree to your proposal for the following reasons:-

(1) Even if the proposal is sanctioned it will not be possible to equip the additional staff with necessary arms - vide your D.O. dt 8.10.1942 to Mr. Bryant, a Copy of which has also been received by Mr. Rutherford.

(2) The additional Constables now being trained in the Central Recruits' schools were intended to strengthen the ordinary Station police.

(3) It is proposed to sanction an additional platoon to the Armed Reserves in each of the 23 districts, one of which is Bellary.

(4) The districts of Bellary, Kurnool and Anantapur have been Comparatively quiet and it should be possible to furnish the guard from the P.G.R or A.R in turns.

(5) It is hoped that it will not be necessary to Continue these special precautions for more than another three months.

Yours sincerely.

Memo.

Copy of confidential letter R.C.No.1904/Genl/45, dated 12-5-45, from the Deputy Inspector-General of Police, Central Range, Bellary, to the Inspector-General of Police, Madras.

Sub: Police - Bellary district - Guard for the Alipuram Jail.

Ref: Chief office R.C.No.454/W/45, dated 21-4-45.

letter A copy of the reply of the District Superintendent of Police, Bellary is herewith enclosed. Although the number of prisoners in the Jail falls below the safety figure, I would recommend the continuance of the Police guard until the number of prisoners (784) is appreciably reduced. Such a recommendation is made on account of the Jail being only a camp jail without all the necessary security provision.

The Armed Reserve party from the Cuddapah district also was got for sometime. This was based on the orders issued by my predecessor. It is a mistake and has since been rectified.

↳ Sec para 2 on p. 9 C.F. *** (Y)

Copy of letter Rc.No.613/Aud/45, dated 8-5-45 from the District Superintendent, Bellary, to the Dy.Inspr.-Genl. of Police, Central Range, Bellary.

Ref: Your memo.C.No.1904/Genl/45, dated 25-4-45 with reference to Chief Office Rc.No.454/W/45, dated 21-4-45.

P.T.O.

The number of prisoners in the Allipuram Jail at present is 784, and the number of warders is 94. This works out to one warder to eight prisoners roughly. The number of prisoners in the Jail therefore falls below the safety figure.

But the Supdt., Allipuram, Jail, Bellary, who was consulted in the matter states that the Allipuram Jail is a camp jail provided only with barbed wire fencing without walls and that the supply of electric current for the wire fencing was also stopped from 6-9-43. It is therefore considered necessary for the continuance of the police Guard of 1 H.C. and 27 P.Cs. under the above circumstances even though the present strength in the Jail is below the safety figure.
